

First Window Defogging franchise opens serving Portland, Oregon and surrounding markets.

Nashville, TN (August 31, 2006). Crystal Clear Window Works USA (CCWW), the company that uniquely restores windows and 'Gets the Fog Out' of insulated glass units (IGU) without the high costs, inconvenience or environmental consequence of replacing glass, is proud to announce the opening of its first franchise serving Portland, Oregon and Vancouver, Washington and their surrounding markets.

Clear Window Restorations, located in Milwaukie, OR, (tel: 503-653-4013) is now servicing residential and commercial customers in north western Oregon and south western Washington with the proven, licensed process that restores a window's clarity by expelling moisture and cleaning interior glass, and saves energy dollars by recovering a window's insulating abilities. The company is owned and operated by John Watt, a veteran of the auto glass industry, who will now provide a full-service glass replacement and/or restoration offering to new and existing customers.

"This is an exciting partnership for us," says John Hennessy, CEO of Crystal Clear Window Works. "Clear Window has made a tremendous investment in the brand, for which we are grateful. John is a valuable addition to our franchise network. Our unique collaboration offers the northwest an enviable blend of new restoration technology and industry experience".

"I have seen so many failed windows and doors through the years in business, and understand the struggle my customers have with loss of aesthetics, reduced energy performance, and until now, no choice but to replace! I am pleased to launch a service and exposure that our residents deserve: cost-effective IG restoration and an environmentally-friendly alternative" says Watt.

This franchise represents CCWW's 45th opening. Crystal Clear franchises now serve over 100 of the major markets in the United States and Canada. CCWW looks to attract highly qualified industry professionals with a track record of management success. Adds Watt, "Crystal Clear is a company with a proven integrity and commitment to customer service, and Clear Window Restorations intends to provide our corner of the north western U.S.A. with the same kind of commitment".

Crystal Clear Window Works will be exhibiting at the Glass Build America 2006 event taking place at the Las Vegas Convention Centre September 19th through 21st.

About Crystal Clear Window Works

Crystal Clear Window Works has revolutionized the way homeowners and property managers manage failed windows. The company's proven process for restoring thermal functionality and the aesthetic qualities of residential and commercial windows has provided a cost effective, environmental alternative to replacement. The company formally established a franchise network in 2002, and today, over 125,000 units have been serviced across the United States and Canada.
