

**Crystal Clear Window Works launches franchise opportunities in the United States.**

*National Franchise Offering provides access to IG Restoration and Defogging Services to customers across the country*

**Nashville, TN (January 11, 2006).** Crystal Clear Window Works USA, LLP (CCWW), the nation's only licensed provider of insulating glass unit (IGU) restoration and defogging services, has formally registered its Uniform Franchise Offering Circular with the Federal Trade Commission. The registration gives CCWW official franchisor status, enabling the company to offer franchise and dealership opportunities throughout the U.S.

CCWW has already seeded the market with 12 Authorized Dealers operating in various locations across the country. The company will continue its expansion adding up to 60 new franchises in 2006, and plans to service all major US markets by mid 2007.

CCWW brings to market a new business opportunity restoring failed insulating glass (IG) windows and doors. CCWW is the exclusive provider of an IG restoration process that 'gets the fog out' of sealed units, a cost-effective and environmentally friendly alternative to window replacement. Most dealers offer a range of services including IG replacement, scratch removal, sash restoration, and glass cleaning. The company is looking for qualified individuals and businesses to develop franchises in un-serviced markets over the next 12 to 24 months.

"This is an exciting time for our company, says John Hennessy CEO and Managing Partner of CCWW USA. We have validated the business model and our success is built on the efforts of franchisees responding to significant residential and commercial demand for this service."

Clients of the IG restoration process include homeowners, track home developers, property managers, condo corporations, restaurant chains, multi story buildings, Insulated Glass fabricators, public transport operators, and window companies.

"There is nothing comparable to this service offering in America," says Hennessy. "Our mission is to bring opportunity to incumbent IG specialists and other entrepreneurs. We have laid the groundwork for a franchise network to accommodate mass market adoption of this valuable and environmentally responsible service. This is a compelling means to fulfill some dreams and make a positive contribution."

**About Crystal Clear Window Works**

Crystal Clear Window Works has revolutionized the way homeowners and property managers manage failed windows. The company's proven process for restoring thermal functionality and the aesthetic qualities of residential and commercial windows, has provided a cost effective, environmental alternative to replacement. The company formally established a dealer network in 2002, and today, over 100,000 units have been serviced across the United States and Canada. Information about Crystal Clear Window Works services and its dealer network are available from Authorized Dealers pages on the CCWW website at: [www.crystalclearwindowworks.com](http://www.crystalclearwindowworks.com)
