

First Window Defogging franchise opens in the state of California

Nashville, TN (May 9, 2006). Crystal Clear Window Works USA (CCWW), the company that uniquely restores windows and 'Gets the Fog Out' of insulated glass units (IGU) without the high costs, inconvenience or environmental consequence of replacing glass, is proud to announce the opening of its first franchise in the state of California.

Pioneer Services, located in Mountain View, (tel: 650-965-7829) is now servicing residential and commercial customers in the Santa Clara and San Mateo Counties with the proven, licensed process that expels moisture, recovers insulating performance, and restores a window's clarity. The company is owned and operated by Randy & Wanda Mills, veterans of the window washing and property services industry, who will integrate this new service offering to new and existing customers.

"This is an exciting partnership for us," says John Hennessy, CEO of Crystal Clear Window Works. "Pioneer Services has already made a tremendous investment in the brand, for which we are grateful. Randy and Wanda are a valuable addition to our dealer network. Our unique collaboration offers the valley an enviable blend of 'new restoration technology' and 'industry experience'".

"I have seen so many failed windows and doors through the years in the service business, and understand the struggle my customers have with loss of aesthetics, reduced energy performance, and until now, no choice but to replace! We are pleased to launch a service and exposure that our residents deserve: cost-effective IG restoration, and an environmentally-friendly alternative" says Mills.

This franchise represents CCWW's 35th opening since 2004, now serving over 80 of the major markets in the United States and Canada. CCWW looks to attract highly qualified industry professionals with a track record of management success. Adds Mills, "Crystal Clear is a company with a proven integrity and commitment to customer service, and Pioneer Services intends to provide our corner of California with the same kind of commitment".

Crystal Clear Window Works will be exhibiting at the Glass Expo West 2006 taking place at the Anaheim Convention Center on May 12 and 13th.

About Crystal Clear Window Works

Crystal Clear Window Works has revolutionized the way homeowners and property managers manage failed windows. The company's proven process for restoring thermal functionality and the aesthetic qualities of residential and commercial windows has provided a cost effective, environmental alternative to replacement. The company formally established a dealer network in 2002, and today, over 125,000 units have been serviced across the United States and Canada. Information about Crystal Clear Window Works services and its dealer/franchise network are available on the Crystal Clear Window Works website at: www.crystalclearwindowworks.com
